carpet & upholstery

stain spray extra strong

removes even the most stubborn stains! incredibly effective!

500 ml e

HG stain spray extra strong (HG product 94)

HG "stain spray extra strong" is strengthened with active oxygen, which enables it to remove even the most stubborn stains such as red wine, coffee, chocolate, sauce, lipstick, shoe polish, fruit juice, grease, etc. from textiles including carpeting and furniture and car upholstery. The active oxygen formula means that even the most deeply ingrained stains are no problem at all. HG "stain spray extra strong" is suitable for virtually all textile types.

Directions for use: Turn the nozzle on the front side a quarter. Completely spray the surface and leave to penetrate for a few minutes. Wipe off the stain with a clean, absorbent cloth (e.g. a flannel). Turn the nozzle a quarter after use (OFF).

Attention: Transport and store the bottle upright. You are advised in all cases to test the colour-fastness of the material beforehand by rubbing an inconspicuous area with a cloth moistened with HG "stain spray extra strong". Not suitable for oriental rugs and materials that are unsuitable for wet cleaning. Use HG "spot & stain spray cleaner" (HG product 93) for delicate materials. Do not mix with chlorine/chlorine-bleach. Do not spray onto metal. Store upright in a cool and dry place.
• Medical personnel can request the data sheet via +31 (0)36 54 94 777. • The consumer's information sheet can be obtained via www.HG.eu
